WHY WINDOWS, WHY NOW

Australia needs more affordable homes. Windows are a good place to start.

2.24M

more homes Victoria plans for by 2051

A$742.50

for one small single-glazed sliding window at Australian retail, with GST and delivery

7 stars

the energy rating most new Victorian homes need, so the glass matters too

THE PROBLEM · IN LINCY'S WORDS

PROBLEM	Lack of affordable homes - we want want cheaper home with consistent quality for people living in Australia
WHY IT EXISTS	Increased housing price - Expensive materials, labour and complex supply chains increase construction costs make it harder to deliver affordable housing.
WHO HAS IT	Australian homeowners, renovators, builders and cabinetmakers seeking affordable, reliable home fittings and décor.
HOW WE SOLVE IT	Reduce cost in material, construction, and supply chain, starting with small home products such as windows through and online store that connect customer with Chinese suppliers.
WHAT IT UNLOCKS	Lower window costs would help customers improve their homes within budget and unlock Chinese suppliers to Australian market.

CLOSEST COMPETITORS · LINCY'S RESEARCH

Six importers, all sourcing from China.

WHERE WE SIT

Bottom left, like Windora: supply-only and windows first, while we test demand.

WHAT'S DIFFERENT

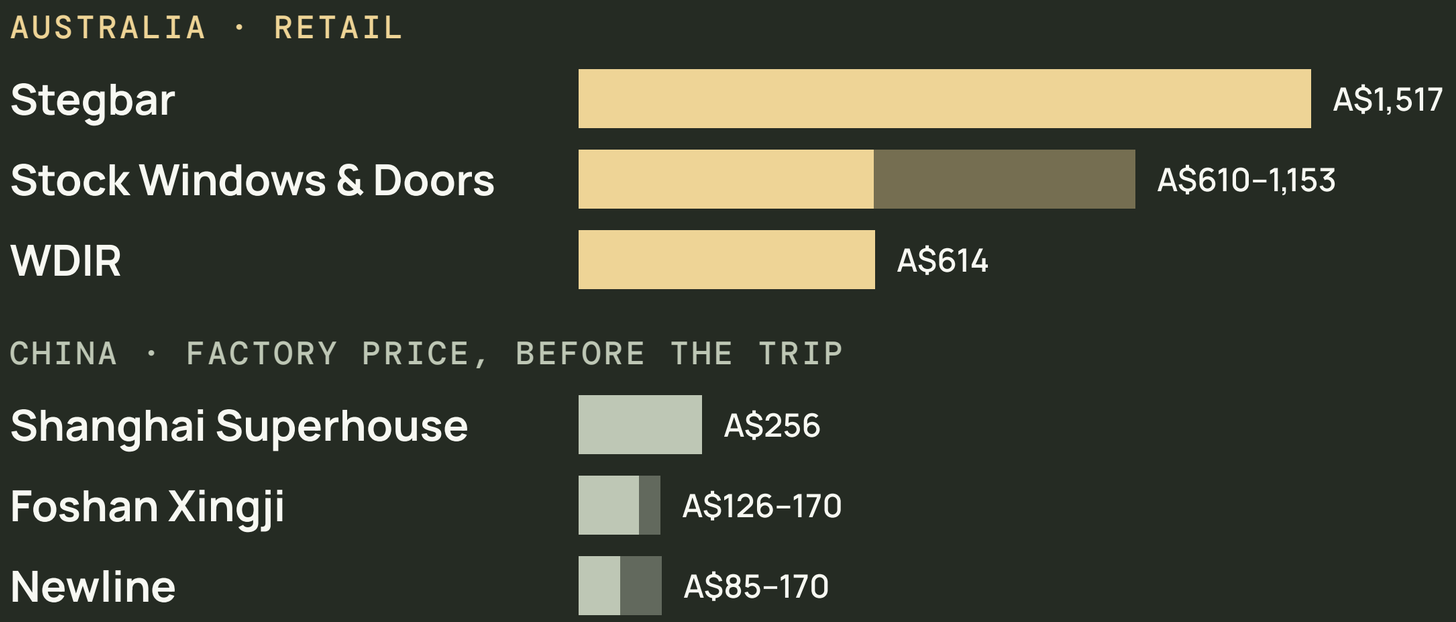

We compare makers in China and Thailand, show the delivered cost next to the local price, and say so when local wins.

PRICE CHECK · AWNING WINDOWS · LINCY'S RESEARCH

Cheaper at the factory. Then comes the trip.

A$ per m² of window. A pale end shows a price range.

58–94%

lower per m² at the factory gate

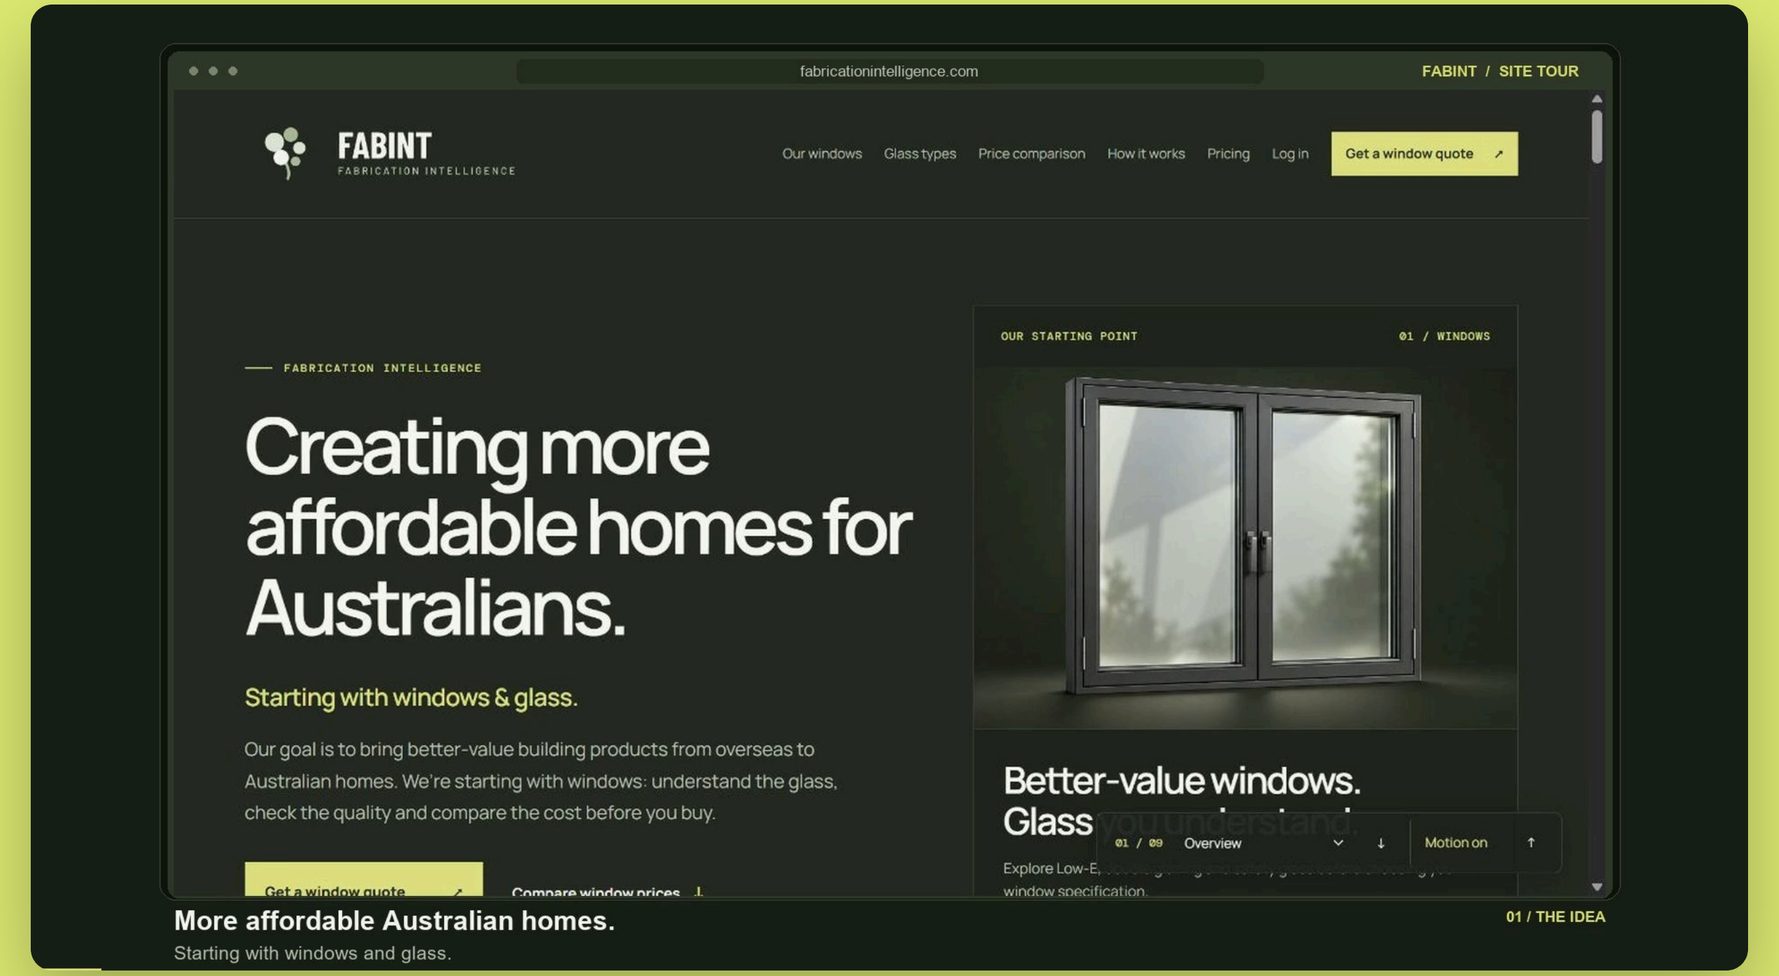

LEFT OUT OF THAT PRICE

Freight, import charges and GST, delivery to site and currency fees. Minimum orders are 5 to 20 m².

That's the trip we price.

Lincy's price check, 24 Sep 2026 · China: advertised FOB rates at US$1 = A$1.42 · indicative, not like-for-like

WHAT WE PRICED THIS WEEK

One window, overseas and local.

THE WINDOW Complete aluminium sliding window · single glazing · qty 1 · delivered in Australia

THAILAND · OUR ESTIMATE

A$356.55

delivered, with GST, import costs and our fee

1200 × 1100 mm, 5 mm green-tinted glass. A planning estimate, not a confirmed quote.

AUSTRALIA · STEGBAR

A$742.50

online sale price, with GST and delivery

1210 × 1200 mm, clear glass. Eligible delivery areas only.

THE GAP

~52%

lower on paper

Not a verified saving yet: the size and glass differ. Next is a written quote to a real address.

Stegbar price and delivery terms checked 24 Sep 2026 · the Thai figure is our own planning estimate

OUR FEE, EXPLAINED

How our 10% works: the 20% rule.

Example: A$1,000 window

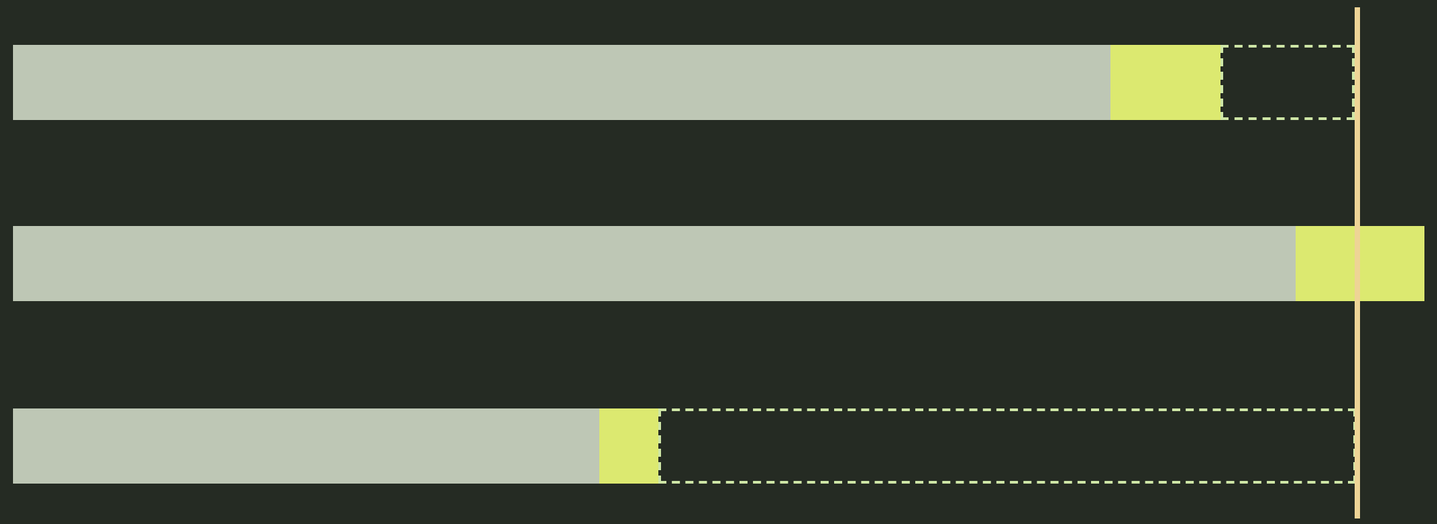

A$818 from overseas + our A$82 fee = A$900. The buyer saves A$100.

China test: a real quote

Only 4% under local. With our fee the buyer pays A$67 more, so it fails.

Thailand test: our estimate

About half the local price, even with our fee in it, so it passes on paper.

Overseas window, delivered · Our 10% fee · What the buyer saves · Local price (100%)

If overseas isn't at least 20% under local, we tell the buyer to buy local.

overseas × 1.10 ≤ 0.9 × local, so overseas ≤ 82% of local · China: A$1,239 vs A$1,296 · Thailand: A$356.55 vs A$742.50

RISK

Anti-dumping case 691

Covers aluminium windows and doors from China. Final report due by 25 November 2026.

Our response: we're testing Thailand too, which this case doesn't cover, and we show the duty risk on any Chinese aluminium option.
